KEY FEATURES

What you can expect from Scanshare Applications

CAPTURE SOURCES

- Multifunction devices
- iOS/Android smart phones
- Network/local scanning devices
- Email (SMTP, POP3, IMAP, Exchange and Office365)
- Local, remote, or network folders
- FTP sites
- PC desktop client
- Printer client
- Web services

STORAGE CONNECTORS

- Network Folders
- Cloud storage providers, including Microsoft[®], Google[®], Box[®], Dropbox[®], Citrix[®]
- Dozens of content and document management system connectors
- Email
- Printing devices
- ODBC-compliant databases
- Structured output (CSV, XML etc.)
- Embedded document storage module with web/mobile UI

PROCESSING MODULES

- Full text recognition
- Zonal and Smart text recognition
- Intelligent Character Recognition (handwriting)
- Automatic FreeForm recognition
- Optical Mark Recognition (OMR)
- Interactive document verification and approval web module
- Intelligent document recognition
- Image enhancement
- Barcode recognition (1D/2D)
- Encryption/Decryption
- Document annotations (including stamping and security redaction)

ENTERPRISE FEATURES

- Accounting and billing
- Centralized, HTML5-compliant administrator user interface
- Digital signature module (digital signatures may be applied to PDF documents during processing)
- Military-grade encrypted storage
- Clustering and load balancing
- Authentication services (MFD Single Sign On, Windows, Active Directory, LDAP, Azure, G Suite, OAuth)
