60 transponder technologies

Universal

Runs on LF and HF
and with NFC and BLE

110+

International

Certified in as many
as 110 countries*

Convenient

Remotely configurable
and updatable

Connected

Partnerships with specialized
providers such as HID Global,
LEGIC and NXP

* for TWN4 MultiTech 2 BLE programmability

ACOI + **ELATEC**
RFID Systems

WHY ELATEC?

- **Configurable** via contactless card

- **Reprogrammable** by remote programming through printer (Xerox, Lexmark, HP, Ricoh)

- **Flexible**: Any reader can be turned into an analyzer to read card technology

- **RFID Agnostic**: Simultaneously supports over 60 RFID technologies, including Low-Frequency (LF), High-Frequency (HF), NFC & BLE, even simultaneously in some cases

- **MFP Agnostic**: Supported by all major printer manufacturers

- **Customizable**: Customer-specific programming available

- **Bluetooth options available** (managed vs non-managed credential), including Bluetooth mobile application

- **Slim Reader** designed around HP HIP2 Pocket

USE CASES

Parking	EV Charging	Secure Printing	Retail
Bike/Car Sharing	Driver Identification	Gaming	IoT
Vending and Ticketing	Physical Access	Single Sign-On	Time and Attendance
Fitness Equipment	Elevator	Fleet Management	Education
Healthcare	Locker Locks	Machine Authentication	

SECURE PRINTING

PROTECTION OF SENSITIVE DATA FOR SHARED PRINTERS

Security
Print job and higher data security (GDPR conformity) – no printing until user is identified

Time and cost saving
Increase of productivity and reduction of printing costs with usage tracking – no longer waiting in line, sift through printouts or unnecessary user management

Sustainable
Reduction of waste

Convenience
For employees and your company – ELATEC offers a unique solution package of product, software and service with easy integration or quick wireless configuration on site

ACOI + ELATEC RFID Systems

VENDING AND TICKETING
PERFECT MATCH FOR INDUSTRIAL APPLICATIONS

All in one solution
ELATEC offers a unique solution package consisting of a product, software, and service that works worldwide (worldwide radio certifications)

Flexibility
Satisfaction of individual preferences. Easy integration and adaption to already-existing RFID environment at the customer's facility (i.e. OEM-friendly).

Miniature size
Thanks to their small size, the readers are easy to install.
Security
Only authorized persons will be granted access, especially for dispensing or locking systems. It provides usage tracking.

Convenience
making payment, accessing secured tools, using personalized services etc. – all without the stress of keys/PIN authorization. Further benefits: loyalty card for payment option, quick wireless configuration on site.
