

Payter Payment Terminal

Payter Payment Terminal \$ > Your Bank \$

Payter is responsible for any transactions completed with the credit card reader. Drivers can use the Payter terminal to initiate a transaction outside of the Mobile app - similar to a gas pump.

Please complete the two links below to set up your Payter account

- Merchant sign-up: [Payter Merchant Account Signup Page](#)
- Payment terminal activation: [Payment Terminal Activation Form](#)

Helpful notes while completing the Merchant form:

- You will need to provide business information like an EID
- You will need to provide bank account information. This account is where money will go but also where fees will be taken from. There must be enough money in this account to pay the registration fee.
- Emails provided will get the notifications about payments
- Whoever fills this out should have signing power for the company and will need to provide a social security number
- If you have issues, contact: support@payter.us
