

Only pay for the data you use with Kpax Koins.

3 Levels of Information

Customize your plan based on your needs.

When you apply a profile to one or more devices, then the Koins are consumed and recorded in the current month. The features are activated for a period of 30 days and are automatically renewed without any action on your part. Of course, you can mix several profiles in the same space!

To enable features on a device, create or use default profiles:

- **Ignore/unmanaged** profile (default) = 0
- **Managed/mps** profile (meters + consumables + technical information) = 3
- **Monitor the competition** profile (meters) = 1
- **Deliver only consumables** profile (consumables) = 1
- **Read only the meters** profile (meters) = 1

Get started for \$180 per month.
Earn discounts as you use more Koins.

KPAX Koins allow you to align the price of data management with your contracts and offerings.

Number of Koins=Price per Unit per month. Includes 1,000 Koins

Koin Tiers	Koin Discount Levels	Monthly Price	Per Koin	CDA Pricing
