Integrations **PaperCut** MF

Billing Integration | **ESILAW 360**

Required Modules

- Both the export of matters to PaperCut and the import of charges from PaperCut use the ESILAW 360's native import and export functionality. No additional modules are required.

Data Export From ESILAW 360 (To Papercut)

- Client/ matter information can be automatically exported from ESILAW 360 using the ESILAW 360's native Matter export functionality.

Data Import To ESILAW 360 (From Papercut)

- Papercut will automatically export a CSV file to a Windows folder on a scheduled basis.
- The importing of data (cost recovery) into ESILAW 360 can be automated.

Vendor Support

- The customer does not need to schedule time with ESILAW 360 vendor support. ACDI is very familiar with working with ESILAW 360.

Scheduling

- The ESILAW 360 integration can typically take place on the same day as the PaperCut installation.

Export Options -Client/Matter Information

- Exporting client/matter information from ESILAW 360 can be automated.

Frequency

- The sync can be scheduled to run on the hour or every half-hour.

Export Options -Transactional/Cost Information

- Papercut will automatically export a CSV file to a Windows folder on a scheduled basis.
- The importing of data (cost recovery) into ESILAW 360 can be automated.
- The transaction import uses the standard Expense Entry import tool built into ESILAW 360.

Frequency

- Daily, weekly, or monthly.
- If the customer has migrated the PaperCut database to a Microsoft SQL server, or if they are using at least PaperCut version 19.1, we can update the CSV file on an hourly basis.
