

Guide for Installing Canon MEAP Application for PaperCut MF

1. Use the files found in the link below to find the .JAR files and License Access Numbers for each respective MEAP application. Alternatively, these files can be found in the file structure of any instance of PaperCut MF v24.0.2 or newer([PaperCut MF Install Location]\providers\hardware\canon\Americas)

- a. [Meap License Information](#)

2. Navigate to <https://asd-pub-an18.srv.ygles.com/web/licenses>

3. Enter the License Access Number in the corresponding field for the application you would like to generate a license for. For example, if you're installing the pc-meap-gen3.jar application, use the code found inside the pc-meap-gen3-license-access-number.txt file

4. Select Issue licenses for the Operation field and click Next (image for steps 3 & 4)

The screenshot shows the 'Software Distribution/License Management' interface at step 1. The page title is 'Software Distribution/License Management'. There are navigation arrows for steps 1, 2, and 3, with step 1 being the active step. A language dropdown is set to 'English' with a 'Switch' button. The main section is titled 'Select Operation' and contains the instruction: 'Enter the license access number for the Canon product you purchased, and select an [Operation].'. Below this, there is a 'License Access Number' field containing 'BX4M-3T8J-'. The 'Operation' section has two radio buttons: 'Download applications, options, or manuals' (unselected) and 'Issue licenses' (selected). A blue 'Next' button is located below the operation selection. At the bottom, there is a link for 'Operator's Manual' and a note for users from the Chinese Mainland with a link to the 'Chinese Mainland end user page'. The Canon logo is centered at the bottom, and the footer reads 'Copyright CANON INC. 2020'.

5. Check the highlighted field to ensure the right code has been entered, and then at the bottom of the page click Apply for License Issuance

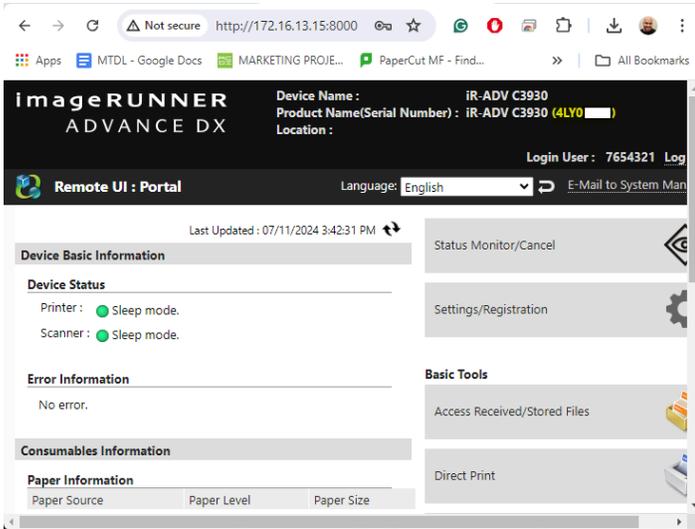

The screenshot shows the 'Software Distribution/License Management' interface at step 2. The page title is 'Software Distribution/License Management'. There are navigation arrows for steps 1, 2, 3, 4, 5, and 6, with step 2 being the active step. The main section is titled 'Confirm Product' and displays the following information:

Product Category	MEAP
Product Name	PaperCut Gen3+ 1.3.1
Product Code	PaperCut Gen3+ 1.3.1
License Information	
Expires After (in Days)	Does Not Expire
Counter Type (Maximum Value)	
Number of Registerable Devices	Unlimited

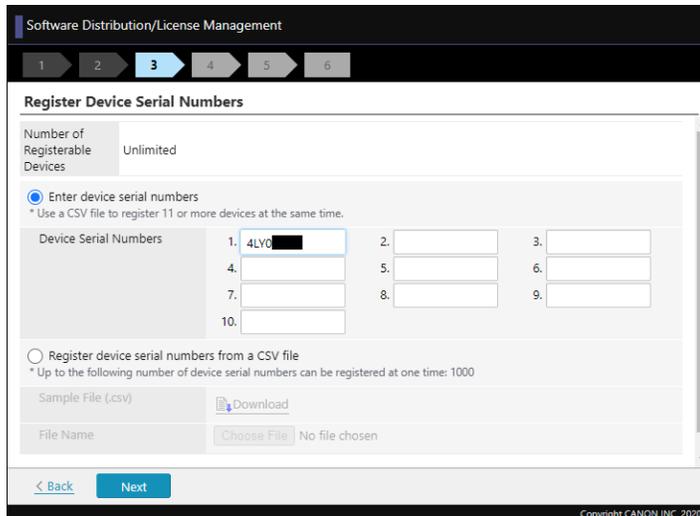

At the bottom of the form, there is a '< Back' link and a blue 'Apply for License File Issuance' button. The footer reads 'Copyright CANON INC. 2020'.

6. Enter the device serial number/s into the device serial number slots as necessary. Alternatively, a CSV file may be uploaded
 - a. The serial number can be found on the web interface of the Canon multi-functional device

(image of a Canon iR-ADV C3930 with the serial number highlighted)

(image of the Canon licensing portal)

7. Enter the device's serial number in the corresponding field once more and click Next at the bottom of the page

The screenshot shows a progress bar at the top with steps 1 through 6. Step 4 is highlighted. Below the progress bar, the title is "Confirm Device Serial Numbers". A note says "*Items must be entered." There is a field labeled "Device Serial Numbers*" with a value of "1. 4LYO" and a blacked-out portion. At the bottom, there are two buttons: "< Back" and "Next". The footer contains "Copyright CANON INC. 2020".

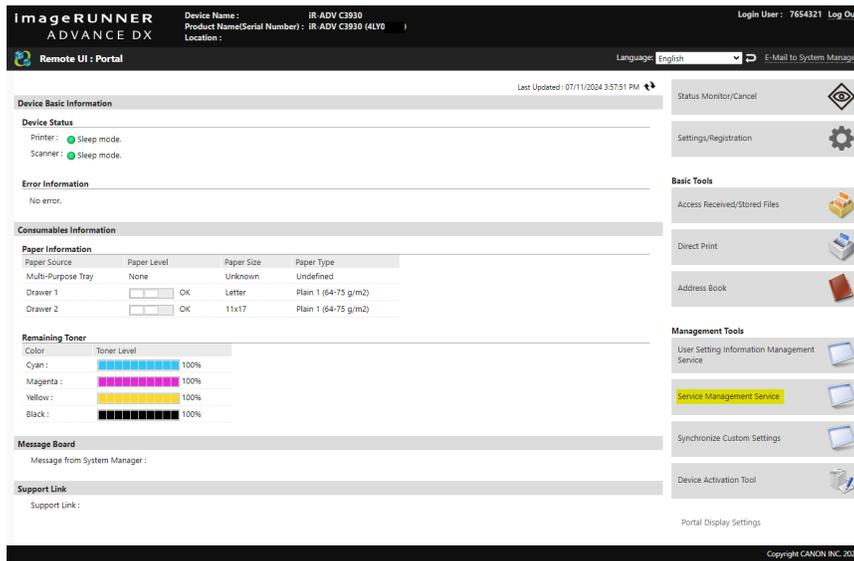

8. Confirm all of the information on the page is correct and then click Issue License File at the bottom of the page

The screenshot shows a progress bar at the top with steps 1 through 6. Step 5 is highlighted. Below the progress bar, the title is "Confirm Information". The page is divided into three sections: "Product Information", "License Information", and "Device Information".
Product Information:
Product Category: MEAP
Product Name: PaperCut Gen3+ 1.3.1
Product Code: PaperCut Gen3+ 1.3.1
License Information:
Expires After (in Days): Does Not Expire
Counter Type (Maximum Value):
Number of Registerable Devices: Unlimited
Device Information:
Specified Device Serial Numbers: 4LYO [blacked out]
At the bottom, there are two buttons: "< Back" and "Issue License File". The footer contains "Copyright CANON INC. 2020".

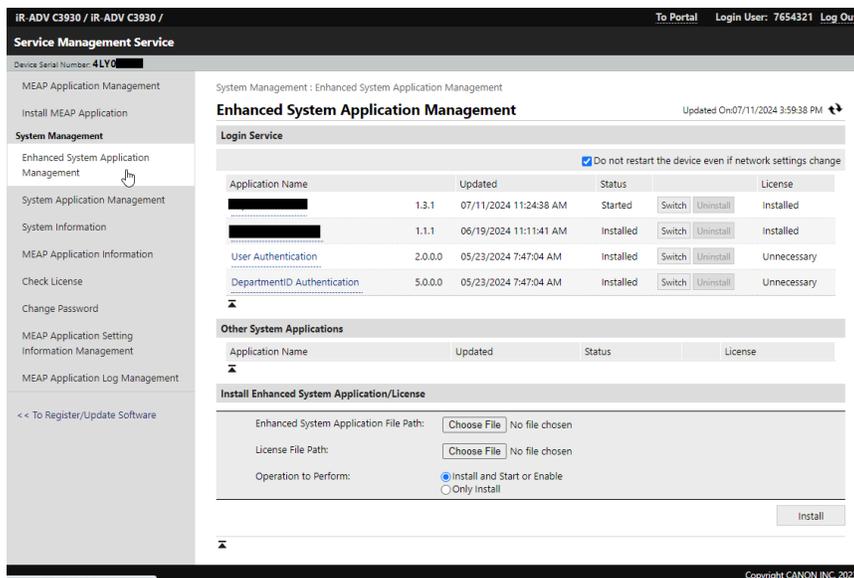

9. Once on the Issuance Complete page, click Download to obtain the License File
 - a. It is recommended to rename the license file to something easily recognizable to ensure you're applying the correct license to the correct device

The screenshot shows a progress bar at the top with steps 1 through 6. Step 6 is highlighted. Below the progress bar, the title is "Issuance Complete". There is a field labeled "Issued" with the value "2024-07-11T20:54:00.856Z". Below that, there is a section labeled "Download File" with a field labeled "License File" and a "Download" button. At the bottom, there is a button labeled "< To Select Operation". The footer contains "Copyright CANON INC. 2020".

10. Log into the Canon's administrative web interface
11. Navigate to the Service Management Service tab on the right-hand menu

12. Navigate to the Enhanced System Application Management tab found on the right-hand menu

13. In the Install Enhanced System Application/License section you will choose the .JAR file for the version of the MEAP application that you want to install on the Enhanced System Application File Path: Choose file field, and the license file that was generated in the earlier steps on the License File Path: Choose file field. Leave the Install and Start or

Enable option as is, in the Operation to Perform: field.

Install Enhanced System Application/License

Enhanced System Application File Path: pc-meap-gen3.jar

License File Path: Gen3Meap-4VL0.lic

Operation to Perform: Install and Start or Enable
 Only Install

14. Click on the Install button
15. If needed confirm the installation
16. If installed correctly, the PaperCut Gen3+ (or corresponding MEAP version) will appear on the Login Service field with Start after Restart as its Status

System Management : Enhanced System Application Management
