

# ESILAW BILLING INTEGRATION

## Required Modules

- Both the export of matters to PaperCut and the import of charges from PaperCut use the ESILAW 360's native import and export functionality. No additional modules are required.

## Data Export From ESILAW 360 (To Papercut)

- Client/ matter information can be automatically exported from ESILAW 360 using the ESILAW 360's native Matter export functionality.

## Data Import To ESILAW 360 (From Papercut)

- Papercut will automatically export a CSV file to a Windows folder on a scheduled basis.
- The importing of data (cost recovery) into ESILAW 360 can be automated.

## Vendor Support

- The customer does not need to schedule time with ESILAW 360 vendor support. ACDI is very familiar with working with ESILAW 360.

## Scheduling

- The ESILAW 360 integration can typically take place on the same day as the PaperCut installation.

**Export Options -Client/Matter Information**

- Exporting client/matter information from ESILAW 360 can be automated.

**Frequency**

- The sync can be scheduled to run on the hour or every half-hour.

**Export Options -Transactional/Cost Information**

- Papercut will automatically export a CSV file to a Windows folder on a scheduled basis.
- The importing of data (cost recovery) into ESILAW 360 can be automated.
- The transaction import uses the standard Expense Entry import tool built into ESILAW 360.

**Frequency**

- Daily, weekly, or monthly.
- If the customer has migrated the PaperCut database to a Microsoft SQL server, or if they are using at least PaperCut version 19.1, we can update the CSV file on an hourly basis.
